

Finding accommodation

You'll find accommodation in Amsterdam via our UvA broker services for 1 to 3 rooms apartments.

Apartments are situated in or near the city center of Amsterdam. The city center can be reached within minutes by bike and public transport.

The rent of the apartments varies between € 900 and 1,200 per month depending on the number of rooms, m² and the location.

Of course you are not obliged to use these broker services and look for accommodation yourself. In that case Facebook groups can be very useful for finding an apartment. And don't forget to tell your colleagues and personal contacts that you are looking for accommodation. Many apartments change tenants through informal networks.

If you look for accommodation yourself, then keep in mind that rents for a one bedroom flat start from around € 900 per month; paying twice that sum is not uncommon. A deposit is customary and is usually the equivalent of one or two months' rent. Tenancy agreements can be concluded for fixed periods of time and changed at the discretion of the tenant (or landlord, depending on the circumstances). You should therefore read your tenancy agreement carefully. For example, if you wish to lease a house or apartment for six months, do not sign an agreement for a year.

There are a number of Internet sites where you can start your search (see the link section below). Also Facebook groups can be very useful for finding an apartment (see also the list below).

Internet links

- privateoffers@uva.nl - the UvA has a mailing list called Private Offers, where individuals can offer their accommodation for sublet.
