

no. 1 - 13 June 2024

Welcome to all new UvA students

Dear **student**,

we're excited for you to start your programme at the University of Amsterdam next September and want to make your start as smooth as possible.

In the upcoming months, you will receive a series of Start Newsletters full of practical information as well as nice-to-know items to keep you updated.

We wish you the best of luck with your preparations and look forward to welcoming you in Amsterdam!

Arrange your health insurance

The health insurance system in the Netherlands might be different from what you are used to. By law, it's required that you arrange appropriate health insurance for the entire duration of your stay. Failing to do so may result in a fine.

Make sure you have the type of coverage you feel comfortable with. Take special care if you have any pre-existing conditions. On our website, you can get up to speed with the latest information.

Webinar: Health Insurance 'Zorgverzekeringslijn'

We know this is not easy material. To assist you with all possible questions, the independent zorgverzekeringslijn hosts a webinar for international students. **Join on 4 July 2024, 15:00 CEST.**

UvA student housing

The application procedure for UvA student housing has now closed. **It is no longer possible to apply for UvA housing.** We aim to make the results of the lottery available within the next week, so we urge all applicants to keep a close eye on their inbox and spam folder. Housing will be available from the fixed start date of 16 August.

Finding accommodation on your own

Unfortunately, the university will not be able to provide enough housing to accommodate all new students. Therefore, we strongly recommend searching for

accommodation independently before the outcome of your housing application. Check [our website](#) for more information and also [apply to attend our upcoming webinar](#) on how to search for a room in Amsterdam.

Studying with a disability

The UvA aims to be optimally accessible to all students, regardless of a disability or special needs. We offer help and advice to make your studies successful and respond to your individual situation as best we can.

For anything the UvA should take into consideration (for example, limited mobility, chronic illness or dyslexia), **it's important to contact a student counsellor**. Please note that it takes time to make proper arrangements, so seek advice as soon as you're admitted to your programme.

Learning Dutch

Hallo, hoe gaat het? The UvA's Institute for Dutch Language Education (INTT) offers Dutch language courses at different levels and intensities. You'll soon find out that most people in Amsterdam speak English to some degree, but **learning a little Dutch can be very useful** if you want to find a job to support your studies. A reduced fee for the courses applies to UvA students enrolled in international study programmes.

University locations

The University of Amsterdam has **locations and buildings throughout the city**. Large clusters are situated around Dam Square-Spui Square (City Centre), Roeterseiland (East) and Science Park (East). Another location is at the Amsterdam UMC/hospital location AMC (South-East).
